OFFICE OF PETITIONS

Dear Sir or Madam:

This letter is in regards to a petition for an incomplete non-provisional application.

FILED UNDER 37 CFR 1.53(b)

*Add. 93*  
The design of the Wacker Chaps is to provide protection from flying debris while weed wacking. The Product is a dedicated Design for the purpose Described. After an exhausted search for a product that protects from the feet to the chest, we developed the garment based on extensive testing in both the commercial and consumer garment industry. The Wacker Chaps provide a great protection and prove to be useful and give results of the claim. The claim that we make is based on the one-piece garment protection with adjustability built in. This Product does what we say and is not a duplicit to any other garment.

Sincerely,

*Cheryl A. Letson*  
*William K. Letson*
